

**EXOCOAT CLEARVIEW**  
by Axcentive

**DURABLE, TRANSPARENT AND  
VERY HYDROPHOBIC GLASS COATING**

EXOCOAT CLEARVIEW is an easy to apply transparent coating to protect glass and make it instantly and very hydrophobic with contact angles to water of nearly 120°.

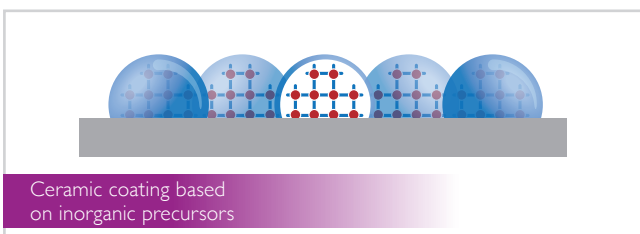

EXOCOAT CLEARVIEW converts the glass surface to a hydrophobic and oleophobic surface from which water droplets run down quickly and from which dirt is easily washed off.

Very hydrophobic glass coating

## Unique chemistry

EXOCOAT CLEARVIEW is based on inorganic and hydrophobic precursors. The precursors crosslink to make an impenetrable submicron ceramic layer that chemically bonds to the glass surface to ensure durable protection.

Ceramic coating based on inorganic precursors

Easy to clean glass when protected with EXOCOAT CLEARVIEW

## Wiperless driving

When driving in rainy conditions EXOCOAT CLEARVIEW applied windshields expel rain droplets so quickly that there is no need to use wipers.

Moreover, as confirmed by testing at the Fraunhofer Institute the light scattering of EXOCOAT CLEARVIEW is extremely low ensuring safe driving in difficult weather conditions.

Hydrophobic windshield

Left side coated with EXOCOAT CLEARVIEW

## Applications

Besides glass, bathroom hardware and ceramics coated with an invisible and very hydrophobic layer of EXOCOAT CLEARVIEW reduce calcium deposits.

EXOCOAT CLEARVIEW can be used on untreated bare glass, chemically tempered, and thermally tempered glass.

Bathroom ceramic, tile and hardware

Yacht glass

Application by circular wiping

## Long-term performance

EXOCOAT CLEARVIEW ensures long term hydrophobicity and easy to clean surfaces. A coating of EXOCOAT CLEARVIEW endures 2500 scrub cycles (ISO11998) and is chemically resistant to salt, carwash and household chemicals. The inorganic nature of the coating assures complete UV resistance.
